Mobile Print Station 150 Take your DuraLabel 7000 anywhere signs and labels are needed!

The **Mobile Print Station 150** is a portable option which comes fully loaded with sign and label templates, printing software and DuraLabel assistance. Ships with an extra large keyboard that fits directly over the existing layout and a mini optical mouse for easy operation. The MPS150 operates with the Duralabel 7000, DLP, and DLP300 printers.

Testimonials for Graphic Products, Inc.

Graphic Products, Inc. has proudly been serving our customers since 1970 with efficient and reliable identification and communication products. Read what some of our customers have to say about some of our products and services.

I wanted to thank you for the gift package and the NFPA labels. The service that you gentlemen have provided thus far has been some of the best I have experienced. You are definitely an asset to our company. I will highly recommend your company to my associates and friends. Keep up with the good work and I look forward to continue doing business with Graphic Products.
Jimmy / Safety Manager

"The new machine is fantastic! My old machine was slow and the printing quality was low. I can't believe how fast the new machine is. I also like using my computer station vs. the tiny keyboard. Graphics are also easy to add. It was very easy to set up, and I really liked the M&M's"

Don - Maintenance Manager

"Just wanted to let you know that I finished my testing on your labels and they actually held up better than expected. So that is good news! I tested using solvents, acids, bases, and peroxide...nothing ruined the labels."

Kirk - Chemist / Lab Supervisor

"We have really found many uses for this product and use it quite extensively as our purchases dictate. Thanks for all your customer support and of course the M&M's are always a great treat."
Supply Chain Manager

Came into work this morning and found that the printer and supplies have arrived. The out of box experience was a breeze. After getting our help desk to give me temporary administrative privileges, I was able to install the software easily. It took a few minutes of trial and error to start printing labels that I required. Yes, you were absolutely right. This printer will fill and exceed our existing needs. Thanks again for your support and service. If the need arises and I do have questions, I will be sure to contact you.

P.S. My crew and all chocoholics are enjoying the M-Ms.
James / Inventory Control
