

High Visibility Labels & Signs

DuraLabel Specialty Supplies which draw attention where it is needed!

Phosphorescent

Duralabel Phosphorescent supply glows for eight hours after a light source has been removed. The NFPA 101 code now requires phosphorescent marking in stairwells. DuraLabel phosphorescent supplies meet and exceed the requirements of all municipal, state and NFPA codes. Ideal for providing emergency information during power outages, including lining hallways to lead towards exits. Suitable for indoor and outdoor applications.

Common Applications Include:

- provide emergency information
- exit signs & directional signs
- hazard identification
- outline stairwells, steps & handrails

Available in sizes
1" to 7" widths

Phosphorescent available for the DuraLabel PRO series of printers and the DuraLabel 7000 Wide Format Sign Printer

Fluorescent/Day-Glow

Use this bright fluorescent vinyl when highly visible temporary signs are in need. Available in bright green, yellow and orange to grab attention for any situation or environment. Designed for short term use, promotional, safety and high visibility applications. Resistant to mild acids, alkyls and salt solutions.

Available for the DuraLabel PRO series of printers (5 sizes) and the DuraLabel 7000 wide format sign and label printer (3 sizes).

Common Applications Include:

- construction sites
- industrial equipment warnings
- facility warnings
- identification demanding extra attention
- changes during a maintenance outage

Reflective

Make information easily visible in low-light environments. DuraLabel reflective supply shines when a light source illuminates the label or sign making the message clear. Available in various colors and sizes for both the DuraLabel PRO series of printers and the DuraLabel 7000 wide format sign printer. Suitable for either indoor or outdoor use.

Common Applications Include:

- parking lots
- electrical panels and boxes
- identifying labels

Metallized Poly

Designed to give the appearance of brushed aluminum, this sharp attention-grabbing supply is ideal for identification labels and signs. Resistant to most mild acids, alkalis and salt solutions. Use where stylish labels and signs are desired.

Common Applications Include:

- asset tagging
- promotional labels
- equipment name-plates

Two-Color Vinyl

Draw awareness to your message with the two-color striped vinyl, ideal for safety signs and labels. DuraLabel PRO striped vinyl is designed to comply with OSHA, ANSI, NFPA and other label and sign codes and standards. Vinyl is resistant to alcohol solvents, cleaning agents, UV light, humidity, water and oil. Common stripe colors include red, orange, yellow, blue and green in different widths and vinyl sizes. Please call 1-800-788-5572 for custom colors and vinyl sizes. Two-color vinyl is suitable for both indoor and outdoor applications.

Common Applications Include:

- safety signs
- temporary messages
- Arc Flash labels
