

DLP - Shrink Tube & Tape Guide Install

To the Right:

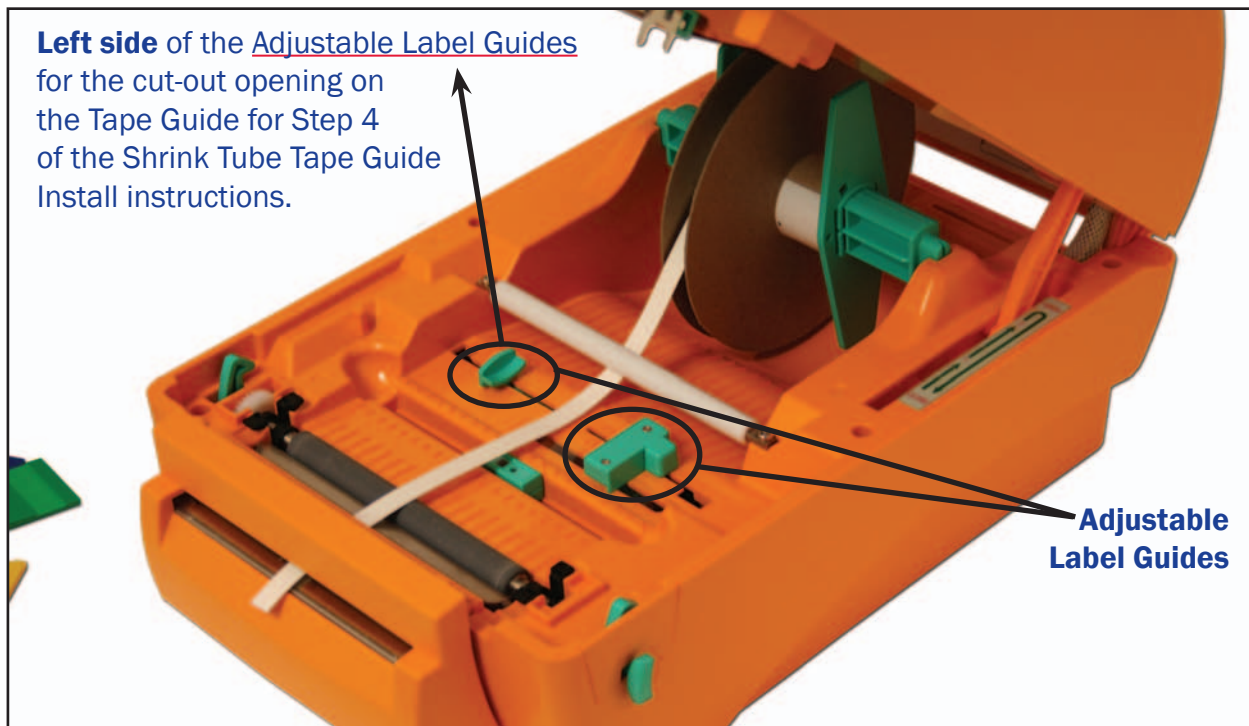

1/8" Shrink Tube Tape Guide is on it's side with the grooved side facing out.

Cut-out opening of Tape Guide for left side of Adjustable Label Guide inside printer.

Grooved section of Guide to hold the shrink tube in place.

1. Load shrink tube supply into the DLP and thread it through the cutter.

Left side of the Adjustable Label Guides for the cut-out opening on the Tape Guide for Step 4 of the Shrink Tube Tape Guide Install instructions.

Adjustable Label Guides

2. Find the corresponding Tape Guide to match the size of shrink tube or vinyl loaded. Guides are required only for 1/2" vinyl supply and the four smallest sizes of shrink tube. Larger vinyl and shrink tube are adequately held in place by the adjustable guides.

Tape Guide Color - Size of Supply

White - 1/2"

Yellow - 3/8"

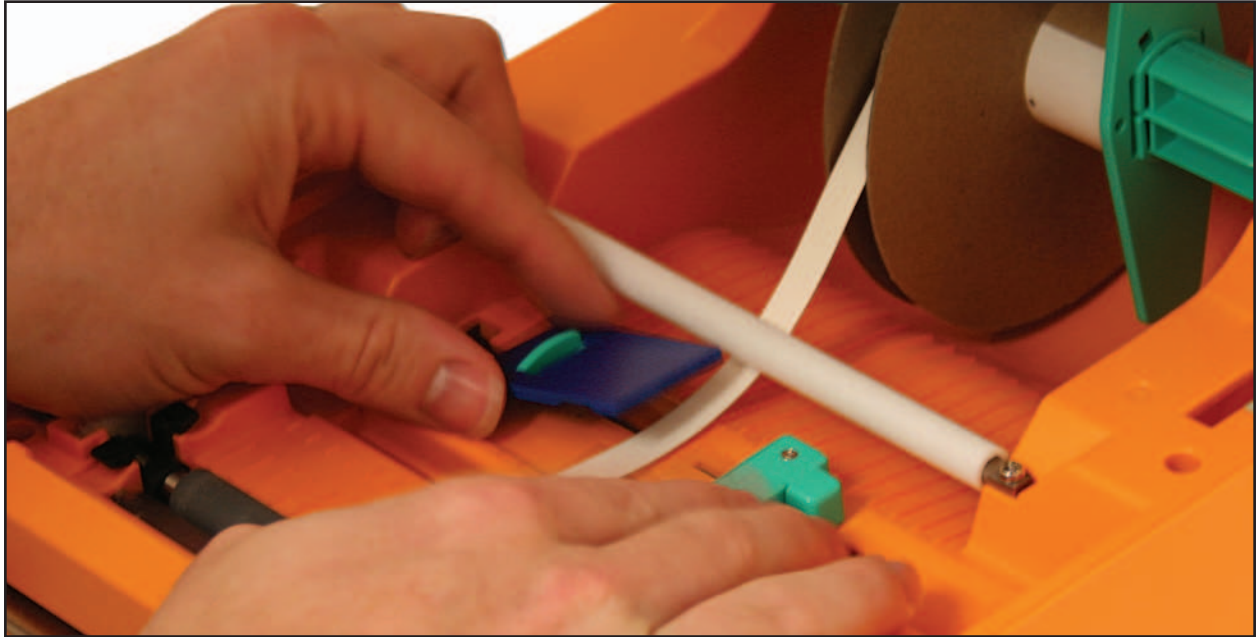

Green - 1/4"

Blue - 3/16"

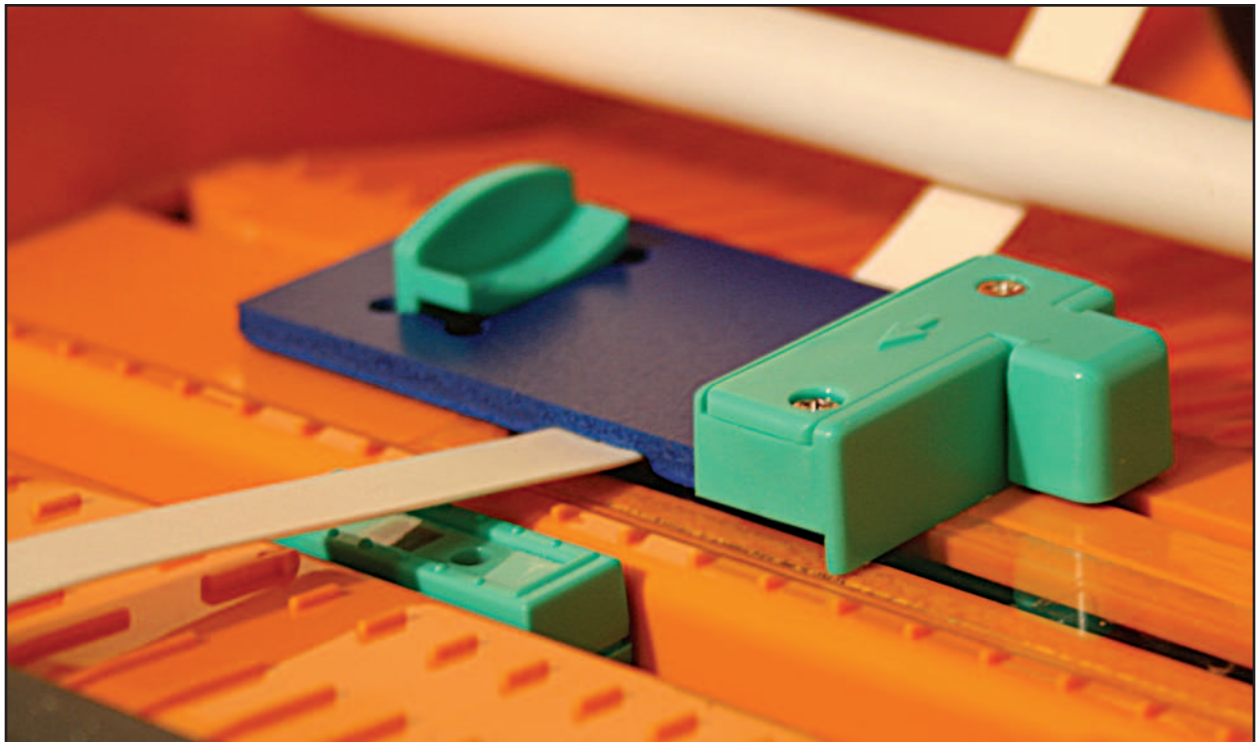

Black - 1/8"

3. Facing the front of the printer, hold the Tape Guide in hand with the smooth, flat side facing up and the cut-out opening on the left side.
4. Slip the cut-out opening of the guide over the left, smallest Adjustable Label Guide (inside the printer).

5. Align the shrink tube supply under the grooved section of the Tape Guide to center text as it prints and for easy, smooth dispensing.
6. Move the Adjustable Tape Guides together until they stop, securing the Tape Guide in place.

Close the printer cover and you're ready to print!
