DuraLabel has your installation covered.

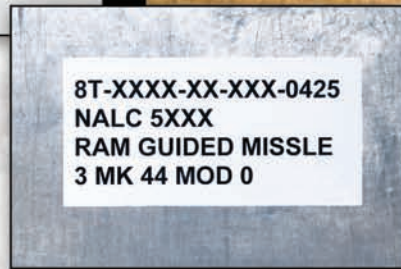

- Wayfinding
- Hours of Operation
- Public Access Information
- Inventory Control
- Equipment Identification
- Warehouses
- Directional Information
- Construction
- Safety Hazards

...And More!

Apply labels directly to ordnance

Don't settle for paint cans, labor intensive stencil cutting and destructible cardboard tags and ties. DuraLabel military-grade labels expedite marking and labeling duties and are specially designed to withstand the rigors of combat operations.

Why is DuraLabel the best choice?

- **Tough** – Permanent adhesive keeps 3.0 mil label firmly affixed to numerous application surfaces (metal, fiberglass, etc.)
- **Durable** – Supplies are specially designed to withstand extreme weather conditions, harsh environments and rough handling
- **Legible** – Printed text and images do not smear, fade or rub off
- **Cost-effective** – Labels are inexpensive to produce
- **Compliant** – We'll work with you to ensure your labels comply with military, OSHA and ANSI standards

Here's how we solved a routine labeling issue for the U.S. Navy:

Material Condition Labels (QA tags)

OLD Traditional Cardboard Tags

- Fill out tag info by hand
- Material fades easily
- Easily destructible
- Requires more tools to apply

NEW DuraLabel Permanent Adhesive Vinyl Labels

- Tag info printed with a DuraLabel
- UV-Resistant to prevent fading
- Chemical resistant for harsh environments
- Moisture resistant - Suitable for indoor & outdoor use

Container Labels: Box Labels

For all things military, DuraLabel gets the job done right!
