

DuraLabel® TORO™

Portable Integrated Printer

Toro is DuraLabel's newest, most advanced label printer.

Toro is Standalone

Toro comes complete with a full-size flip down keyboard, an adjustable touch screen, custom software and a thermal transfer printer. Just load your supply, design your label or select a template, and print high-quality labels and signs from ½" - 4" wide.

Toro is IT Independent

Toro doesn't require network connectivity or IT support. There are no security issues with workplace permissions, passwords or computers because Toro operates independently. Toro comes loaded with customized software to create OSHA/ANSI compliant labels and signs for arc flash, pipe marking, NFPA, right-to-know, barcoding, facility identification and more.

Toro is Mobile

Take Toro on the go. Toro offers a line of optional accessories including a battery capable of powering three hours of continuous printing. Take Toro anywhere in your facility or to a remote site. Print when and where you need to. When you're finished fold Toro up and you're ready to move to the next job.

DuraLabel® TORO™

Just flip down
Toro's keyboard
and lift Toro's touch
screen up to one
of four locking
positions for
easiest viewing and
label designing.

Completely Independent Label Printing is Here!

Toro is a new breed of label printer, like no other label printer on the market. It was developed to be mobile, standalone, and perform flawlessly outside an IT controlled environment.

Toro is complete, just load your supply, select your template, and print high-quality labels from ½" to 4" wide.

Toro is a must have for any organization that needs the freedom and mobility to create identification labeling anywhere, anytime.
